Racking up Trailers and Load Numbers

Samsara has a bit of a glitch where it racks up trailers and load numbers will back up on your logs. This is form and manner points that are easily avoided. To make sure you do not have multiples:

USA Property (8/70)

Available tomorrow

70:00 h / 70 h

Log

Roadside

Today

00:00 hours

Uncertified >

Delete whatever loads/trailers you do not actually have. If you have multiple drops or loads that is the only time, you want multiple trailer/loads on your logs.

If you need help, please reach out to safety

Spotlight Driver- Jeffrey Baker

Jeffrey has been a local driver for GT for one year. He runs out of Mansfield, so we do not get to see him often but we can always depend on his to do a good job! The customer loves the service Jeff delivers daily. Jeff and his wife are both wonderful people to talk with as well! We are proud to have you as part of the GT Family!

- STEPHEN K.- TRUCK 582
- BRAD W.- TRUCK 616

GT Highway Hero

On 1/30, our driver Brian Stamm stepped up and showed kindness and bravery to another motorist. Traveling in slushy weather in the dark; a car lost control, spun out and then rolled. Brian helped get the driver out of the vehicle and let her stay in his truck while emergency vehicles arrived. In his 33 years of driving, he has never had something like that happen to him before. We are so proud of Brian for stopping and helping when many other vehicles kept going past the accident scene.

Don't forget- IFTA stickers need to be on the truck before March 1st! Company trucks are in the shop and owner operators were mailed in December. If you need replacements, see safety.
